VI Project Proposal

(i) Title of the Project Proposal :

An Evaluation of Youth Development through Pradhan Mantri Kaushal Vikas (PMKVY) Yojana in Beed District of Maharashtra state

(ii) Abstract (approx. 200 words)

Skill mismatch is considered among the key reasons for youth unemployment in India today. The skills that are needed and valued in the labour market are often different from the skills that youth have. Providing a right set of skills to youth through training is therefore seen as a major policy priority. Given rapid economic growth and consequent increase in the demand for skills, the country faces a dual challenge of a paucity of trained quality labour and non-employability of large sections of the educated workforce that possess little or no job skills. To address this gap, the PradhanMantriKaushalVikas Yojana (PMKVY) 2016- 20 was introduced as India's largest skill development scheme.¹ PMKVY is the flagship scheme of the Ministry of Skill Development & Entrepreneurship (MSDE) and is implemented by the National Skills Development Corporation (NSDC). The objective of this scheme is to enable a large number of Indian youth to take up industry-relevant skill training that will help them in securing a better livelihood. The scheme aims to train them on skills based on the National Skill Qualification Framework (NSQF) and industry-led standards. The institutional arrangement for the scheme comprises the Ministry of Skill Development and Entrepreneurship (MSDE), NSDC, Sector Skill Councils (SSCs), Training Providers (TP) and Assessment Agencies (AA). Post the on-boarding of these stakeholders and finalization of job roles under which training could take place, the operational stage of the program starts. This includes mobilization of candidates, counselling and pre-screening, enrolments, training/orientation, assessment, certification, and placement.

(iii) Introduction of the Proposed Study (approx. 400 words)

Prime Minister NarendraModi launched a Skill India campaign on 15 July, 2015. This campaign goal is to train over forty crore candidates in India in different-different skills by 2022. It includes various program of the government like PradhanMantriKaushalVikas Yojana (PMKVY), National Skill Development Mission, National Policy for Skill Development and Entrepreneurship and the "Skill Loan scheme". PMKVY is a unique initiative that aims to offer meaningful, industry relevant, and skill based training to twenty-four lakh Indian youth. Under this initiative, the trainees were offered a government certification and monetary reward on successful completion of training, which will help them to earn money or securing. Consequently, the PMKVY was developed as a key measure to impart skill-based training to youth, enabling them to earn and support the anti-poverty efforts of the nation. The scheme is important for Indian society, which has the world's largest youth population that requires employable skill (According to Newspaper - the Hindu, Nov 2014, India has 356 million populations between 10 and 24 years of age). The Prime Minister has accredited the country's first built-in countrywide policy for skill development and entrepreneurship. In the words of Prime Minister NarendraModi, skill improvement in India should envision the "Creation of an ecosystem of empowerment through skilling on a massive scale at speed with high standards and promote a lifestyle of innovation based entrepreneurship generating wealth and employment and making sure sustainable livelihoods for all" Since the last two decades, India's government has implemented many large national programs for vocational education, training and skill development to improve youth employment and earnings prospects. Meanwhile four years to PMKVY came into existence, it is essential to evaluate the role and impact of PMKVY. This research flings light on to PMKVY. The basic aim behind this research is to evaluate of PMKVY in skill development (with special reference to Beed District)

(iv) Major Research Works Reviewed: 1) International and 2) National. Not less than 15 to 20 important works (approx. 400 words) :

Review of Research International Chenoy (2012), Improving workers' efficiency is a key task for many businesses and entities in India with economic opening and increasing exports. Furthermore, as the Indian economy expands, this growth will require a big amount of qualified people. According to Chenoy, "Vocational courses enrollment in India is around 5.5 million per year, while 90 million in China and 11.3 million in the US". Only 2 percent are Indian employees officially qualified. For this, joint initiative by government and their partner agencies is develop skill development Ryan (2001a:74) identifies other country initiatives bringing education and the world of work closer together. Japan has begun to introduce more diverse models of secondary education to appeal to a wider range of students. Its integrated senior high schools give students more flexibility to take electives based on vocational interests. France offers apprenticeship-based routes to public vocational qualifications as an alternative to school-based ones. The Netherlands is adding more educational content to apprenticeships and Sweden is introducing mandatory work experience in upper secondary education. National Katole (2015) identified two main ways for developing skills that is through education & training and developmental experiences which is significant for the economic development of the country. Skill is the capability to do something good to arise from talent and training. Also Author state the skill development model and training methods for micro-entrepreneurs in India, Model fall into three categories that is general management, entrepreneurial and knowledge related skill. Unemployment problem is the major challenge to India, youth enter in jobmarket every year after completing their education but remain jobless due to lack of opporunities. Promoting self-employment entrepreneurial among the unemployed youth is good solution. With this constraint, the model was developed to provide training to unemployed youth to engage in wages employment to earn livelihood. Divyaranjani&Rajasekar (2017) study evaluates the effectiveness of training in overall development of workforce and to identify the results of training programme provided. Primary data of 456 workers of automobile industry, Chennai were used for the study. The findings point out the importance of training and development efforts as training improves skills, capability, ability and finally worker performance and productivity. Singh & Mohanty (2012), clarified that training is a significant instrument in order to improve individual efficiency and eventually will boost the value of organizations but organizations should strike equilibrium between education and instruction. The final findings showed that the impact of training in various industries is varying. As per Bhuvana kavya and Geetanjali's report Pradhana Mantri Kaushal Vikas Yojana is one of the schemes which has been launched with the vision to provide skill training to youths. 50.75% male and 49.2

(v) Identification of Research Gap (approx. 300 words) :

Review of literature indicates skill development in India is rambling and need immediate actions. The skill development programs have noted that if youth are properly skilled they can contribute to economic growth. The age group available to Indian economy is more influenced toward the learning traditional concept, if skilled can contribute to make the economy stronger instead of becoming the liability. However the previous studies had explored various aspects regarding the status of available skill capacity, requirement and gap also initiatives taken by Government of India for Skill Development but very few studies have been focused on the PMKVY, and it has not been investigated in Beed District . Hence the present study aims to evaluate PMKVY in Skill Development, with reference to Marathwada region. There are many attributes identified for the present research study: The skill development raise the productivity level of the work force and employability of youth, who otherwise feel isolated after being educated but not able to earn livelihood. Identification of the employability characteristics of performance relies on the design and curricula of the industry. Trainee perception about training varies on the basis of demographic characteristics of trainee. Training effectiveness depend on the motivation of learning. Mobilization has been a foremost apprehension owing to traditional attitudes, as reluctance to migrate at low starting wage

(vi) Objectives of the Proposed Study (approx. 100-150 words):

The objectives of this study are: To understand importance of PMKVY and find out the various factors that influences PMKVY in Skill Development. To assess the role of the PMKVY in improving the productivity of trainee in Beed District. To examine the impact of PMKVY in performance improvement of trainee in Beed District. NSDC can offer more training to those employees to update their skills. The informal sector consists of 93% of the workers who lack skilling mechanism. Hence the government felt the importance of Skill Development and Entrepreneurship development efforts across the country for the growth of our economy. There is a need for quick restructuring of the skill development ecosystem which is essential to suit to the needs of the industry to guarantee improvement of life of the population. As India is moving towards global knowledge economy, it has to meet the rising desire of its youth. Respected Sir/Madam,

Greetings from NAAC.

This is with reference to your proposal seeking NAAC financial assistance/academic support for organizing state/national level workshop/seminar/conference in your institution on the topic **Challenges of National Education Policy 2020 Before Education System**. After due consideration your proposal has been accepted for financial assistance of Rs.30,000/- (Rupees Thirty-Thousand only). Due to new Corona Virus Disease 2019 (COVID 19), NAAC encourages the HEIs organising seminars though online mode. Therefore, NAAC sponsorship for financial assistance under different heads has been revised. The balance amount required to organize this activity may kindly be mobilized at your end. The financial assistance is subject to the adherence to the enclosed procedures for release of sanctioned grants and settlement of the same. NAAC appreciates the initiative taken by your institution and hope that the institution will continue to strive for quality and excellence in Higher Education.

The seminar/workshop has to be conducted on the scheduled date(s) as mentioned in the seminar proposals sent to NAAC. In case of any change in scheduled date due to COVID 19 the institution should inform NAAC the exact date of the seminar. The claims have to be received by NAAC on or before a month after seminar/workshop. In case of any delay in submission of the claims the reimbursement will not be made and NAAC will not be liable for the expenditure incurred.

Yours sincerely,

S.C. Sharma
