Proposal for One day National Workshop on "Remote Sensing"

India's remote sensing program was developed with the idea of applying space technologies for the benefit of humankind and the development of the country. India was the world's first space agency to find water on the moon and insert a probe in orbit of Mars in its maiden attempt.

Remote sensing is the process of acquiring information, detecting, analysing, monitoring the physical characteristics of an area by recording it is reflected and emitted radiation energy without having any physical contact with the object under study. Some of the major applications of remote Sensing is in Agriculture, Climate Change, Disaster Mapping, Hydrology, Soil Moisture, Water Pollution, Forest Fire, rise of sea level Biomass estimation, Crop Condition Mapping, Archaeology, Snow Cover, Glacier Melts Analysis, Ocean Science, as well as in Business like Counting Cars, Movement of Population, City Planning, Mineral Identification, Geohazard Mapping, Early detection of Cyclone, Earthquake, Tsunami, Flood Mapping and many more.

We are forming a group of colleges to conduct One day National Workshop on "Remote Sensing". In the area of Marathwada. This workshop will cover both theoretical as well as practical oriented aspects on recent development in the field of Remote Sensing and is of interest to both faculties and students.

We Conduct the proposed workshop through virtual mode. The organization, registration process and Certificate issue will be carried out on mutual understanding with all participating Institutes. We need technical support like eminent Speakers from IEEE-GRSS Bombay Chapter who will deliver talk on different aspects of Remote Sensing. We are grateful work with IEEE-GRSS Bombay Chapter to promote the truly Interdisciplinary and Important subject Remote Sensing in the Marathwada Region of Maharashtra.

One Day National Webinar on remote sensing Report

The National webinar was organized on 16th December 2021 by the colleges Jawahar Arts, Science & Commerce College, Andur, Dist. Osmanabad, Yashwantrao Chavan Mahavidyalaya, Tuljapur, Dist. Osmanabad & Kalikadevi Arts, Commerce and Science College Shirur, Dist. Beed. Jointly organized and successfully completed national webinar on remote sensing in collaboration with reputed institute IEEE Geoscience and Remote sensing society Bombay chapter.

Registration link was created on Google form and published through social media about 284 participant registered for the webinar. Webinar was conducted on Google meet platform and simultaneously on You Tube live. Hundred participant was joined on Google meet and remaining was joined on YouTube. IQAC coordinator Dr. Vishwas Mane was welcome all participant. Principal Dr. U. B. Chanshetti delivered inaugural speech and inaugurated the webinar. Dr. Sanjay Sitole was called for introductory speech. Dr. A. B. Kadam had given the introduced Dr. Sanjay Shitole.

Webinar. Dr. P.S. Bhale introduce Dr. Amit Kumar Tripathi explained Remote Sensing application in various field especially in agriculture field.

Second speaker Dr. Sangeeta Chaudhari was introduced by Dr. U.N. Choudhar

Dr. Sangeeta Chaudhary given information about Geoscience and basic information behind Google map and so on. Finally in charge principal Siddheshwar express vote of thanks program was concluded feedback link was given to the participant about 240 satisfactory about the webinar

Student Comment- Sir, I have attend the webinar on remote sensing. More useful and hot... Thank you for organizing such a useful events for all the students. It will definitely help us to make our career. Sir I want to do M.Sc. in geo informatics.

This comment is from the student who lived in rural area & which is the successes of our webinar.

Dear Colleagues,

It gives us an immense pleasure to invite and welcome you to participate in the One Day Multidisciplinary International e-Conference On "*Changing Perspectives of Education*" organized by Home Science and English Departments of Kalikadevi College Shirur Kasar and KSK College Beed and your esteemed presence is cordially solicited.

Higher education institutions are investing in increasing resources, in order to attain constructive perceptions among their stakeholders. The motive of higher education has been transformed through time in different ways. Higher education is made up of numerous independent and various institutional types that are operating to support and maintain internal organizational self-interest to serve broader societal objectives. Higher education also serves a wide array of students with differing needs, resources and capacities. Problems and opportunities appear quite different from these various perspectives, and actions and interventions can yield different outcomes across different groups of institutions, students or faculty. Today in this digital era higher education institutions (HEI) are continuously striving to develop and deliver impactful educational programs. At the same time, it has become essential that they should continue to fulfill their mission to educate students in basic applied subjects and equip students with new skills. So it is necessary that the subsequent curricular reforms should be transformative in nature, preparing students to tackle the challenges of globalization, unemployment and vanishing professions. Because of transformation in education system during the Pandemic of Covid 19, through this conference we are trying to identify the gaps and highlight the facts about the perceptions of universities and institutions, pinpointing the dimensions that are influencing the education system. We are trying to determine whether the degree of influence differs when considering the perspectives of different stakeholders or individuals from different geographical areas.
