Green Campus Policy

Cultivation of Eco-Friendly Green Campus is a prime motto of our college. Our college belongs to drought prone area. Through different environment friendly practices and education system we jointly promote sustainable and eco-friendly environment in the campus by adopting, practicing and promoting environmental friendly practices among students and staff to generate Eco-consciousness among them and in the world around them. The green campus initiatives offers an institution the opportunity to take the lead in redefining the environmental culture of society and develop new pattern for creating sustainable solutions related to environmental, social and economic needs of the mankind.

Objectives

- To bring awareness among the students about the hazards spoiling the environment.
- To help the students understand each individual's responsibility to take an initiative to save the environment.
- To help students take small steps in saving the environment and create awareness amongst public
- To encourage students to keep environment clean.

We try to achieve Green Campus status by making significant progress in different aspects of Environment factors:

- Energy
- Water
- Waste
- Green Campus & Biodiversity

To reduce energy consumption;

- Activate power management features on your computer and monitor so that it will go into a low power "sleep" mode when you are not working on it.

- Turn off your monitor when you leave your Table.
- Turn off unnecessary lights and use daylight instead.
- Use LED or compact fluorescent bulbs as much as possible
- Switch off lights, fans in conference rooms, classrooms, and lecture halls when they are not in use.
- Energy audit of consumption of electricity in the college is conducted

Minimize consumption of water.

- Repair sources of water leakage, such as dripping taps as quickly as possible.
- Encourage use of recycled rainwater and grey water to reduce mains water consumption.
- Reuse the water coming out of RO water purification systems for watering plants.
- Use of an efficient and hygienic water storage mechanism is done to minimize the loss of water during storage.

Waste minimization

- Keep a stock of paper that has been printed on one side and use it for day to day rough paper work
- Minimize the use of fertilizers and pesticides in college grounds, opting for the use of vermi compost produced on site wherever possible.
- Reduce the practice of burning plastic and other materials that emit harmful gas on burning is prevented in the campus.
- Use two types of bins separately for biodegradable and non-biodegradable wastes in the college campus.
- E-waste recycling is done by giving the e- waste material to the dealers hired by the institution.
- Dispose the chemical waste generated from the laboratories in a scientific manner.
- For solid waste management a vehicle from Nagar Panchayat samiti comes on the alternate days for collection of solid waste from college.
- All Departments and classrooms are provided with dustbins for dry wastage disposal.
- Technology is used to a greater extent for communication among the staff and the students rather than paper communication. What's app - class wise groups, Department wise groups, Committee wise groups facilitate E-communication and use of public address systems reduces usage of paper in notices and circulars.

Green Campus & Biodiversity

- The students and staff members are given strict instructions to maintain the campus clean and avoid the use of plastic in campus

- Several posters related to the importance of clean and green environment are displayed on the campus.
- A gardener and full time adequate support staff are appointed for the maintenance of mess free clean and Green Campus.
- College celebrates “**The World Environmental day**” on June 5th every year and by conducting competitions among students and also talks by eminent people to bring awareness.
- The plantation program includes plantation of various types of ornamental and medicinal variety, wild plant species in large numbers.
- “**No Smoking, No Tobacco**”, Tobacco and tobacco products are strictly prohibited in the college premises. The instructions regarding this are given to the students and the staff members. The boards are displayed at various places in the college.
- The College conducts Green Audit every year to identify, quantify, describe and priorities a framework of Environment Sustainability in compliance with the applicable regulations, policies and standards.

These strategies are incorporated into the institutional planning and budgeting processes with the aim of developing a clean and green campus. The institution is committed to make necessary efforts to involve the students, faculty and staff in “Green Campus Initiatives”.

2. Geo tagged photos of Management of the various types of degradable and non degradable waste

Liquid waste Management of Laboratories-

- For Non-biodegradable waste management, our Institution have done MOU with panchayat samiti. Vehicle of Panchayat samiti Visits College on alternate days to collect the garbage. We had requested to Panchayat Samiti Shirur Kasar for sending their vehicle to collect the Non-biodegradable waste from college. The waste is collected in dustbins placed in the college campus and departments and given to the vehicle at the time of arrival.

3. Water conservation

Our Institution has a large campus measuring 2.23 acres. Various plants are planted in the campus to maintain greenery. Rain water harvesting is the need of time. Therefore, our Institute had created a Natural Canal at the back side of college. The rain water stored in this canal is helpful to increase the water level of Bore well which is near to it.

The large area of our campus is left open for tree plantation; the rain water that is collected in ground of college campus is diverted towards percolation tank. Through underground Pipe line system it recharges the borewell in the campus and this water is used for plant conservation through drip irrigation.

4. Green campus initiatives

Tree plantation in college for maintaining green campus

- **Tree Plantation by students, teachers & other stake holders**

Our college NSS, Botany and other departments are always enthusiastic for tree plantation. Generally whenever guests visit to our college we plan for tree plantation with their auspicious hands. On 04th Oct. 2022 on the occasion of death anniversary of Late Sau. Kesharbai Khirsagar alias Kaku founder of Adarsh Shiksha Sansthas, Beed. In this tree plantation program as a chief guest was social worker Mrs. Meenatai Ugalmugale.

- **Display of Pollution Management Sign Board sign College Premises**
 - **Air Pollution Management Sign boards**

Environment awareness posters in college premises

➤ Reduced use of Print copies to avoid wastage of paper

Technology is used to a greater extent for communication among the staff and the students rather than paper communication. What 'Sapp - class wise groups, Department wise groups, Committee wise groups facilitate E-communication and use of public address systems reduces usage of paper in notices and circulars. Use more readout material in soft form. Reduce the hard readout material. Use more of e-mail for officially communicating the information needed, online reading etc. For rough printing we take care that one sided waste paper is used instead of fresh paper. The waste paper stock of college is sold to vendor for recycling.

5. Disabled-friendly, barrier free environment

Oath of Environment Protection

Environment is playing a crucial role to survive man and animal on the earth. Regarding world environment day 5th June we celebrate in our college by organized online lecture by the dept. of Geography.

Guest lecture on Environment Effect on Human Health

On the occasion of the commemoration day of Mahatma Jyotiba Phule, a guest lecture program was organized in the college through the department of geography. For this guest lecture Dr. Sudhakar Wanve is speaker on this topic, sir express his views and opinion very effective way. He told India is the second-largest rice-producing country with a share of 22% in the world after China. India has a production of official figures for 2020-21 is 124 Mt with average productivity of 2.7 t ha⁻¹ of rice i.e., 4.1 t ha⁻¹ paddy.

Tree Plantation by students, teachers and other stakeholders

In our college NSS, Botany and other departments are always enthusiastic for tree plantation. Generally whenever guests visit to our college we plan for tree plantation with their auspicious hands. Also Internal Complaint committee had organized tree plantation program by women of local area to bring environment awareness among them. Our students also deliberately participate in tree plantation whenever they get chance.

In collaboration with Tahasil office Shirur (Ka), NSS department of college has planted Bamboo, Zambhool, Nilgiri, Neemetc plants on the river side of Sindaphana flowing from Kolwadi village of Shirur (Ka)
